

PARKS BOOKKEEPING SERVICES

We know your business
so you can grow your business

**SAY 'NO' TO MUNDANE
ACCOUNTING**

THE PROBLEM IS ...

We've found your key challenges are ...

It's not what / do!

No, it's what we do! We're 3rd generation bookkeepers, with over 30 years experience in the UK accountancy industry. We've worked our way through bags of receipts in all of those years & we're really quick too!

I just *don't* have the time!

And so you shouldn't! You should be concentrating on things that bring in new business whilst keeping existing business at it's best. We'll look after the nitty gritty in order to help you understand where your business stands and what to utilise to make it grow from a financial viewpoint.

They said it would be *easy*!

Quickbooks, Sage, Xero, they're all at it! The problem is it's not quite as simple as they are professing it to be. We know our debits from our credits, we also know our bank feed from our reconciliation, and the difference between an invoice, bill and receipt. We're certified with all three mentioned above, plus a few others as well.

WE ADD VALUE ...

We're not just a necessary evil, we do actively and passionately help you and your business

**LETS SEE HOW YOU
DO THAT ...**

Our Service is Bespoke

We LISTEN, and once we've listened, we'll listen some more. Our solution packages are based on everything you tell us, about the business, you and the goals that you want to achieve.

We're 100% digital

Well 99.99%, we still have the odd client that sends us some paperwork, and that's OK too. We'll work with you in order to create a software stack that creates a seamless digital journey. It not only saves paper, it also saves storage space and time. Plus we'll only ever have to physically meet you once (for AMLR) so it doesn't matter where in the UK you're based.

We're cost effective

We take less time, we offer a service that fits your needs and we do this on a competitive monthly retainer. It's a win, win!

Three's a crowd

Not in our packages; each service is sized to meet your need and your purse or wallet, plus you can bolt on as many services as you like, whenever you like.

**THREE IS THE
MAGIC NUMBER**

What kind of service fits your behaviour?

Do you have grand designs for your business, are just looking for some help and guidance or do you just want to meet deadlines? Whichever it is, we have the perfect package for you!

Ambitious

For those who want the tools to meet their goals

Hectic

For those who want a bit more than the basic

Compliant

For those who need to watch the pennies

BOOKKEEPING & RESCUE

Good vs Bad

We have seen some shocking examples of bad work, which we've had to unpick and sort out, and not just by a new client, their old bookkeeper too. Accuracy is important, knowing where to put stuff and being consistent is more so.

In time for tea?

Or MTD? The world has changed a lot, no more so than in recent years. Hence why HMRC's roadmap to get everyone's accounts digitised and submitted online every quarter has remained relatively unchanged. Unfortunately, this will just add to the pressure of meeting more deadlines, especially if you're not used to them.

STATUTORY ACCOUNTS & FORECASTING

YEAR END, NO PROBLEM

So you have an accountant and are happy with them. Cool. We know what they want and we're happy to liaise with them. You haven't got one, or you're not happy? That's no problem either, we can carry out end of year to make sure you get submitted on time, plus we can make sure all of your compliance is looked after too.

NEXT YEAR, OR IN 5 YEARS?

Burning desire to know how things may look next year? Have a project planned but don't know how or when to purchase the assets needed or begin recruitment? We have a range of tools that can help you budget your cashflow or check variances between budgeted and actual spend. We're also experts at project and job costing too.

PAYROLL

Weekly, fortnightly, monthly; hourly rates or salaried; on or off (IR35) payroll workers; payrolls from 1 to 50ish staff; AE pensions and compliance; we cater for your needs on our software of choice.

SELF ASSESSMENT

Company director, sole trader, income from a property or two? You're all welcome here. We'll take your figures, check them and even submit them for you.

SOFTWARE TRAINING

For those budding entrepreneurs that still fancy having a go and want to understand how their software works and what it's capable of doing, we offer training packages for beginners to near experts.

Are you what we're looking for?

Over the years, we've built up specialisms in certain industries, namely:
